**IRON FIREMAN** *builds the toughest Burner Head in the industry.*

Now, we back this up with the toughest Burner Head Warranty in the business!

An exclusive from **IRON FIREMAN** :

## **The Limited 3-Year Firing Head Warranty**

Covered are all major firing head components that are directly exposed to the flame. Specifically, these parts are:

### **WhirlPower™ Series**

- Choke Ring
- Flame Diffuser
- Pilot Tube
- Gas Jets

### **"A" and EED Series**

- Refractory tile
- Flame Diffuser
- Pilot Tube
- Gas Annulus Rings

The terms are simple. The burner must be installed by a participating **IRON FIREMAN** Authorized Dealer or the installation certified by the area **IRON FIREMAN** Representative. First year coverage is provided for with our normal warranty. Second and third year coverage is extended for only the major firing head components are described above. Normal maintenance items such as oil nozzles, ignition electrodes, etc. are not included. Failures are covered which occur during normal use. Parts only – no labor. Failures which are determined (at our sole discretion) to have resulted from improper installation, improper operation, abuse, accidents, etc. are excluded.

To obtain this extended warranty coverage, simply call our Parts Department for a return authorization. Then, you need only return the failed part (freight pre-paid) to our factory. A new replacement will be sent (freight pre-paid) to you after our inspection.

This coverage is applicable to all burners manufactured after January 1, 1995.

So please, be sure to include the burner serial number and reason for failure with your return.
